

Fig. 1 is a schematic diagram of a system for measuring the flow rate of a fluid in a pipe. The system includes a flow meter 12, a pump 14, a valve 16, and a control unit 18. The flow meter 12 is connected to the pump 14 and the valve 16. The control unit 18 is connected to the flow meter 12 and the valve 16. The flow meter 12 is used to measure the flow rate of the fluid in the pipe. The pump 14 is used to pump the fluid through the pipe. The valve 16 is used to control the flow of the fluid through the pipe. The control unit 18 is used to control the operation of the pump 14 and the valve 16.
